Profile

I am a Frontend Web Developer with a passion for creating intuitive and engaging web experiences that make a lasting impact on the user. I program with sound fundamentals and continually learn new tech to improve my developer and user experience. I am eager to bring my drive, desire to continually improve, communication skills, and creativity to a new team.

Experience

Front End Web Developer   SDG   March 2022 – Currently

- Implement e-commerce features and reusable components in an agile ux focused approach with direct collaboration with design, PM, and dev team.
- Create documentation for developers and for end users
